IAN KAMAU

Graduate Electrical & Electronics Engineer

Moi University · B.Eng. · Eldoret, Kenya · Class of 2026

PROFILE

Electrical & Electronics Engineering graduate focused on embedded systems, power systems and industrial automation. Open to graduate engineering, trainee and research opportunities.

EDUCATION

B.Eng. Electrical & Electronics Engineering — Moi University (2021-2026)
Power & Energy · Electronics & Embedded · Control & Automation · Communications

TECHNICAL SKILLS

Embedded: ESP32, Arduino, Embedded C/C++, MQTT, IoT
Electrical: Circuit analysis, machines, power systems, protection
Software: MATLAB, Simulink, Proteus, LTspice, Python, KiCad (learning)

PROJECTS

IoT Distribution Transformer Health Monitoring (final-year project)
Smart Energy Monitoring System · Solar PV Monitoring Prototype
DC Motor Speed Control · Environmental Monitoring Node

INDUSTRIAL ATTACHMENT

Electrical Engineering Intern — 12 weeks, electrical maintenance department (details to be confirmed).

PLACEHOLDER CV — replace with the real CV document.
This file exists so the portfolio download link works out of the box.
Export the final CV to public/cv/Ian-Kamau-CV.pdf before publishing.
